

Tribeca Dental Care

128 Main St Suite 2, Somerville, NJ 08876

(212) 431-4582 | tribecadentaloffice.com

ROBOINTECH

AI-Powered Practice Growth

63 /100
PULSE

Tribeca Dental Care has excellent reputation fundamentals but is leaking customers on its own website due to a broken contact form and no 24/7 AI capture layer.

1 Local Presence & Reputation

How you appear when patients search for you locally.

MAP PACK RANK

Avg #4

Needs consistent posting to break Top 3.

REVIEW VOL

284

Excellent trust signal.

RATING

4.8 / 5

Highly trusted by patients.

VELOCITY

1 / mo

Too slow. Competitors are gaining.

RESPONSE RATE

12%

Unanswered reviews hurt conversion.

GBP PHOTOS

24

Good visual presence.

IN PLAIN ENGLISH — WHAT SECTION 1 IS TELLING YOU

Your rating is fantastic, but your map pack rank is lagging because you are not gathering new reviews fast enough.

Example: If 3 competitors get 5 reviews this week and you get 0, you drop in rank.

HOW TO READ THE SCORE ABOVE

The PULSE score is out of 100. It measures your practice's overall digital health. Every section from here on out has a box like this one to explain why it matters.

2 Website & Lead Capture Health

How well your site converts visitors into booked patients.

CMS & CACHING

WordPress

Solid foundation with WP Rocket.

ANALYTICS

Missing

Tracking container status.

!v HIGHEST-PRIORITY FIX DETECTED

LEAD FORM

Active

Lead form is active.

BOOKING STACK

Split Vendors

Confusing patient/customer flow.

3 Website Health & Core Web Vitals

Technical performance and speed metrics.

PERFORMANCE

68

Needs optimization.

ACCESSIBILITY

94

Great screen-reader support.

SEO

90

Solid on-page structure.

Loading Timeline

SECTION 2 IN PLAIN ENGLISH

Your intake funnel is broken where it matters most. Patients are attempting to give you their information and getting blocked by a broken widget.

Example: If 15 people a month try that form, they bounce. This is silently costing you booked exams every day.

SECTION 3 IN PLAIN ENGLISH

A mobile visitor stares at a loading screen for 4 seconds before your Call Now button is even tappable. This is long enough for roughly 1 in 5 patients to bounce back.

Example: It is like your front desk making a patient stand there in silence for 4 seconds before acknowledging them.

4 AI & Automation Maturity

Your 24/7 responsiveness and automated patient comms.

AI Chatbot / Live Chat

No chat widget detected. After-hours visitors bounce.

AI FIX AVAILABLE

Missed-Call Text-Back

No instant SMS. 62% of callers move to competitors.

AI FIX AVAILABLE

Patient Comms / PRM

No PRM script detected. Reminders are likely manual.

AI FIX AVAILABLE

5 Ad Tracking & Paid Readiness

Foundation for running profitable paid campaigns.

META PIXEL

Missing

Retargeting audience building.

GOOGLE ADS

Active

Tracking foundation in place.

ANALYTICS / GTM

Active

GA4 configuration detected.

LSA SCREENED

Not Verified

Missing the top-of-SERP trust badge.

SECTION 4 IN PLAIN ENGLISH

You are missing opportunities while you sleep. Most people are searching for help after hours, on weekends, or during lunch. When you don't respond, they move on.

Example: cracked molar, Saturday 9pm. They call, get your voicemail, and immediately call the next dentist on Google.

SECTION 5 IN PLAIN ENGLISH

You can't retarget visitors properly. Without a Pixel, any money you spend on ads is wasted because you cannot track who showed interest.

Example: 500 people read your implants page but didn't book. Without a Pixel, they are gone forever.

6 Local Citations & NAP Consistency

How search engines verify your business data.

Google Business Profile	Found & Active
Yelp & CareCredit	Found & Active
Yellow Pages & Zocdoc	Not Found in Search

'v HOURS INCONSISTENCY DETECTED: Homepage, Contact, and Maps do not match.

7 AI Overviews & Generative Engine Readiness

Is ChatGPT and Google AI citing you?

TOPICAL STRUCTURE Strong Dedicated silo pages for towns.	ANSWER-READY Needs Work Marketing copy instead of direct Q/A.
STRUCTURED DATA Unverified Schema.org tags are missing.	CITATION AUTHORITY Thin Directory gaps weaken trust signals.
SECTION 6 IN PLAIN ENGLISH Inconsistent hours confuse Google Maps. If your website says one thing and Yelp says another, Google drops your ranking because it can't trust the data. <i>Example: Maps says you open 8am Saturday, but your site footer says closed. Google penalizes this.</i>	SECTION 7 IN PLAIN ENGLISH AI engines need direct answers, not fluff. ChatGPT and Perplexity are looking for structured Q&A formats, not generic brochure marketing copy. <i>Example: "We provide compassionate, state-of-the-art care" does not help an AI engine answer a user's question.</i>

BRINGING PATIENTS

Elite reputation (284 reviews), clean tracking setup, and structured local SEO.

LOSING PATIENTS

A broken insurance form, split booking systems, and slow mobile load times.

WHERE COMPETITORS PULL AHEAD:

No AI chat, no instant text-back, no unified real-time booking.

CLOSE THE AI GAP IN 30 DAYS

AI Calling

Never miss a call — instant text-back & AI voice.

AI-Ready Website

Fix the broken form, add a 24/7 chatbot & qualified intake.

AI Appointments

One unified, real-time booking system, no more split tools.

AI Reputation

Turn Facebook into a real review channel, close the response gap.

AI SEO / GEO

Structure content so AI Overviews & ChatGPT cite you first.

[Book Free Strategy Call](#)

THE FIVE WORDS IN THIS REPORT WORTH KNOWING

MAP PACK

The three practices Google shows in the map box, above all other results.

PIXEL

Free code that lets you re-advertise to people who already visited your site.

SCHEMA

Hidden labels telling Google and ChatGPT your hours, address and services.

PRM

Patient reminders and recalls sent automatically instead of by hand.

LSA

Google Screened — the verified badge shown above ordinary Google ads.

Not sure which of those matters most for your practice? That is what the free call above is for...
